it Is Now Helieved That About One Hundred and Fifteen People Perished by the Steamboal Disaster of Lake City, Minnesola-Further Debills of the Great Calamity.

LAKE CITY, Minn., July 45.—The exitem in coasequent upon the awful vents of Sunday night has nearly subsided, and the scene of the wreck of the Reamer Sea Wing has now a prominent place in the history of the greatest eatastrophe that ever occurred in this ricinity. All day long the rescuing rews have been at work at the wreck n the continued search for bodies of the

i wo small steamers attached lines to the overturned Sea Wing and succeeded n hauling her nearer the shore, where, haring the day, the coops of volunteers with axes and picks succeeded in cuting away all of the inner wails and partitions of the two decks of the boat. eaving only the bare hull, which will probably be blown up with dynamite,

The rescning parties have succeeded m taking seventeen more bodies from in taking seventeen more bodies from the wrecked steamer, which in addition to the fifty-two taken to Red Wing, one picked up on the shore of the lake and mother a mile above the wreck, brings the total number of bodies recovered up to seventy-one. The body picked up near Lake City was that of a woman, yet midentified. The one found above the wreck was that of John Peterson, of Red Wing.

> It is now reported that the officers of the ill-fated steamer were more or less ander the influence of liquor when the pont started from Lake City on the nome journey. The number known to have been saved is now estimated at seventy-five, which leaves about 115 people thought to have perished in the wreck. This number will undoubtedly be diminished as full returns come in

> from those who escaped. From all that can be learned, the storm did not seriously effect any other locality than the vicinity of Lake City. Some of the crops on the farms near by, which were in the path of the hurri-rane, were more or less damaged by wind and hail. The dumage to build-ings in Lake City will probably not exeen \$100,000, all told, and may fall considerably below that. The bodies aken ont yesterday were taken to Red a steamer where they

The injured are: Engineer William Clowes and Fireman W. G. Miller, both of Richmond, ankle slightly hurt; J. E. Turner, clerk in the Richmond railway yard, hip hurt, and Joseph Hurgraves, unkle slightly hurt.

BLITISH MILITARY MOVEMENTS. Unusual Amount of Activity to Strengthon

the Defenses of Canada. NEW YORK, July 15.—A special to The World from Ottawa says: That there is an nunsual amount of activity in British military and naval circles as regards the defenses of Canada is most apparent, whatever motive may have promoted it. There is an officer of the British army in Canada just now who ing an inspection of the Canadian Pacific railways, that he may be in a position to immediately report to the British government the capabilities of the road for the rapid transportation of troops and munitions of war from India to the Atlantic coast and vice versa.

The fortifications at British Columbia are being strengthened, and the largest theet that has ever been stationed in the Pacific is now concentrating at Esquimalt. The fortifications at Halifax are being greatly strengthened, and the most stringent offers have just been issued to prevent any outsider obtaining information as to what is going on inside the citadel and forts at that point. In addition to this, the defenses of Halifax have, this week, been strengthened by the arrival of two large torpedo boats from England. During the present summer the adjutant general of the several military districts are to report on the state of the defenses of the section which each commands. Modern rifles, in place of the Snyder-Enfield now in use, are to be given to the militia.

It is estimated by the government that it will necessitate an expenditure of upward of \$1,000,000 to replace the arms in use with those of improved pattern, and they want to secure the most effective weapon. Several heavy pieces of ordnance are shortly to be shipped from England for the defense of British Columbia, and everything points to the fact that England is making active preparations to meet any invasion of her possessions in America.

UNCLE SAM'S VOLCANO.

First Active Eruption of Mount Bogostoff Since 1790-A Magnifleent Sight.

PORT TOWNSEND, Wash., July 15 .-News brought by officers and passengers of the steamer Arago confirms the report of Mount Bogostoff being in a state of activity. About two months ago there was a violent cruption on all the islands in the Alentian group, and soon after Bogostoff, which is on Oumarak island, began emitting steam and smoke and air and lava.

Bogostoff has been an inactive volcano since 1796, when the island upon which it is situated is said to have risen from it, and although always marked on charts as extinct, several times in the year smoke and steam have been seen issuing from the crater, and from the original height of 1, 60 feet the voleano has dropped to 859 feet above the sea level. Professor Ediott, of the Smithsonion institution, has visited the island upon which the volcano is situated, and has made important scientific investigation. The flames of the fire, thousands of feet in height, can be seen at night issuing from the mountain.

Mount Shehaldon, which is 5,953 feet high, on Analga, is emitting steam and smoke, and it is thought will soon be in a state of graption. This moutain can be seen at sea for nearly one hundred miles, and will be of great good to navigation if it should become active, as the pillar of fire can be seen for a great distance, and with serve as a guide through the dangerons Onmarak passes.

Never Gol the Wives.

PROVIDENCE, R. I., July 15.-Miss Georgiana Cockroft, a waitress in Sutton's Weybossa street restaurant, was arrested by United States Deputy Marshal Black, of Binghampton, N. Y., yesterday, charged with using the mails fraudulently. She, with one Coen, of Binghampton, N. Y., who claims to be her linsband, has been conducting a bogus matrimonial agency, the marshal complains. Commissioner Donglass named bail, but the prisoner being mable to furnish it was taken to Binghampton. Men in Montana claim that they sank \$150 in the ngency, but obtained no wives.

A Scorching Parallel.

Some of the most scathing e unciations of the Republican party one sees nowadays are from members of the g. o. p. A party must, indeed, be getting low down when its members teel called upon by Bullock. every principle of right and fairness and honesty to denounce it.

Says the Pittsburg Leader, (a Republican paper). "It is curious how fate deals with men. The telegraphic dispatches announce that Stevenson Archer, late Treasurer of the State of Maryland and ex Chairman of the Democratic State Committee, who embezzled one hundred and thirty odd thousand dollars from the funds under his control, has been convicted and sentenced to five years in the penitentiary. With the embezzling Treasurer of her sister State and nearest neighbor in a felon's cell, how must Pennsylvania blush when she reflects that one of her ex-Treasurers is accused, without the amount, and, instead of being in the penitentiary or having proved the charges unfounded, is at the head of the Repub- Cobh. lican party of the nation, and has the effrontery to say to her, 'Here is my candidate for the highest executive office in your gift. Make Delamater Governor or suffer my displeasure." He is a trusted and loved adviser of our pious noneutity, Benjamin Harrison, and of our still more pions millionaire Postmaster General, who takes care to fill his own pockets and grip sack with both hands, while his mouth drops precions pearls about the blessings of poverty and submission to the will of heaven under its trials. Maryland is a Southern Democratic State, but she honors herself hy calling a thief a thief, while Pennsylvania, Northern State and wheel-horse of the g. o. p., elevates her accused ex-State Treasurer to the position of slave driver, puts a whip in his hand and cronches a his feet, to be submissive to his will."

The spectacle of a great party like the g. o. p. retaining at the head of Its National Executive Committee a man who is practically a self-confessed embezzler must be mortifying in the extreme to the large body of honest men who are members of that party. There is but one way for the honest Republicans of Pennsylvania to redeem their party and save it from infamy and that is by rebuking such men at the polls. They will have an opportunity at the approaching election. But will they take advantage of it? And will the party Jenkins, William G. Jenkins and T. B. throughout the land longer submit to be Jenkins. bossed by this embezzler?

Bringing the Question Home.

Says the Portsmouth Times: "How would the people of Scioto County like to have the Federal courts, say a Judge at Cincinnati, appoint supervisors to regulate onr elections, to determine who shall vote and who shall not vote, and to overrule the officials chose 1 by the people, and then to have canvassers appointed by such courts to canvass and tabulate the returns from these partisan supervisors and sav who is elected to Congres? What a mockery of free institutions. The people might as well surrender the elective franchise and let these hired supervisors and canvassers elect the Congressmen and run the Government. Such is the Federal election law which a Republican House has passed, and politicians of the Reed stamp are seeking to force upon the country, in order to perpetuate their power."

All candidates for county offices who have not yet had their names placed on the poll books should attend to the matter at once.

STEVENSON ARCHER got five years in the Maryland penitentiary; Matthew Stanley Quay got six years in the United States Senate. Archer was the Democratic Treasurer of a Democratic State and Quay was the Republican Treasurer of a Republican State.-National Demo-

MAYSVILLE'S POPULATION.

How Many People Did the Enumerators Overlook? The City Assessor's Figures.

"The Census Enumerators must have dded, "the census gave us a population 5,220. Since then there have been a: ast one hundred new residences elected Maysvill, and they are all occupied on oin flud very few vicint dwellings town. According to the approximate figures sent you by the Supervi or list week the population now is only 135 more than in 1880. It is evident to me that a good many have been overlooked."

Mr. A. N. Huff, City Assessor, has furnished the Bulletin some figures that bear the prominent attorney out in his statement above. When on his rounds a few months ago, Mr. Huff not only made a correct assessment of the property, but he made it a point to secure the name of every voter in the city. When tion is paid in sdvauce. Subscribe now, he footed up his list, he had the names and get the bist paper in Northeastern of over 1,500 white voters and over 300 Kentucky. colored voters-about 1,900 voters. Counting four people to every voter-the proportion according to the present census, the five wards of the city. Here is a big discrepancy between the Assessor's figures and the Ennmerators' figures.

says he secured the names of all these, them. Mr. Walsh adds that in his rounds he rarely ever found the head of the family his rounds.

As the matter rests now there is a big, discrepancy between the approximate figures reported by the Supervisor and the Assessor's returns.

MINER'S MAXIMS!

A Shoe May Be Either a Palace or a Prison.

The Census Enumerators must have overlooked a good many people in thicket it marked like a prisoner by the bonds it has borne. A prison is still a prison, no matter how fine city," said a prominent lawyer of Mays. A prison shoe may be ever so pretty OUTSIDE, but inside it is a gloomy cell, a dunlle a few days since. "In 1880," he geon. A prison shoe is a poorly made article --- made to sell but not to satisfy.

Palace shoes are shoes that are good ontside and in; good to look at and good to wear. They are well made, skillfully finished. They are shoes that you hate to lay by, even when past service. They combine in perfection the elements of use and beauty. They are thoroughly good shoes. That's the kind WE sell. Do you wear them? WE have been 58 YEARS SELLING GOOD SHOES.

SUNDRY CIVIL APPROPRIATION.

The Hill Discussed Nearly All Day In the Senate-Amendments Offered and Acted On-The House Spends the Day Without Accomplishing Anything. Other Washington Disputches.

WASHINGTON, July 15.-In the senate yesterday Mr. Hoar offered a resolution which was agreed to, calling on the preminaries. secretary of the treasury for such reports of the commission on the valuation of sugar at the New York custom house, as have not already been trans-

The senate then proceeded to the consideration of the sundry civil appropria-

Mr. Allison made a statement of the status of the various appropriation bills: The agricultural, legislative, executive and judicial, military academy and the army bills had become laws; the consular and diplomatic bill was in the hands of the president: the District of Columbia and the fortifications bills were pending in conference: the Indian bill would be reported to-morrow; the naval, the pension, river and harbor and the sundry civil were still unacted on by the senate. The general deficiency bill was still behind.

Among the amendments to sundry civil bill were reported and agreed to by the senate: Inserting items of \$20,000 for the completion of the building and approaches of the postoffice and court house at Baltimore: increasing the item for repairs to the Chicago custom house from \$45,000 to \$100,000; inserting item of \$30,000 for public building at New

London, Conn.

An item of \$80,000 for the erection of a wing to the building of the bureau of engraving and printing being reached, the old controversy as to hand and steam presses in printing currency, etc.,

sprang up.
Mr. Cockrell claimed the use of hand presses caused an increase of \$61,000 in the expenses of the bureau, and now \$80,000 for an additional building was

Mr. Hawley said the need of additional room was entirely independent of the press question. He maintained that better work was done by hand presses. Mr. Harris said as the result of an

investigation made by Senntor Hiscock and himself last year, his opinion was that steam presses did the best work. Mr. Gorman said that the cost of hand

presses over that of steam presses was only 8 to 10 per cent., and the superiority of the work of the hand presses fully justified their use and the additional expense. The amendment was agreed Other amendments were agreed to as

follows: Appropriating \$13,000 for repairs to the pension building: appropriating \$15,000 for five new boilers in the senate wing.

Mr. Spooner moved to increase the limit of cost of the public building at Milwaukee, Wis., by \$400,000. Agreed

Having disposed of fifty of the 114 pages of the bill it was laid aside.

The senate bill to further suspend for

ten years the status in relation to died immediately after the shooting. Guana islands, was taken from the calendar and passed; also the house bill opening to settlement a portion of the Fort Randall military reservation in South Dakota, with amendments; also the senate bill to provide for the disposal of the Pagosn Springs military reservation in Colorada to actual settlers under the homestead laws. The senate then, at 5:50 ndjourned.

Nothing Done in the House.

WASHINGTON, July 15.—The house spent the entire day discussing the Atkinson bill, supplemental to the act authorizing the construction of the Baltimore and Potomac railroad in the District of Columbia. Finally it was recommitted to the committee on the District of Columbia.

American Vessels for American Mails. Washington, July 15.-The postal subsidy bill passed by the senate Saturday authorizes the postmaster general to enter into contracts for a term of not less than five nor more than ten years in duration with American citizens for the carrying of mails on American steam-ships between the ports of the United States and such ports in foreign countries (the Dominion of Canada excepted). The vessels are to be American built steamships, and owned and officered by American citizens.
